## **Directions:**

- I. Open the PDF file on your desktop

- 4. Print the certificates you'd like and treat the finished sheets like letterhead.

Choose a blank certificate.

5. Create your custom message for each form in a word processing application, e.g. Microsoft Word. Alternatively, you can write directly on the award to customize it. You might also consider signing and dating the award.

Add your own message!

- 6. Make sure to match the orientation of the award certificate (landscape) to your word processing document.
- 7. Place the letterhead certificates in your printer.
- 8. Print your customized message on the certificate.

**That's it!** Your award certificate is complete and ready for distribution.
